

ELECTRICAL ENGINEER JOB DESCRIPTION

Job title: Electrical Engineer

Department: Service Team / Projects / Engineering

Reports to: Field Line Manager

Primary location: Field based in Bristol, Bath and Swindon area

Head Office: 1 Ambrose House, Meteor Court, Barnett Way, Gloucester, GL4 3GG

ROLE DESCRIPTION

We're looking for a skilled and reliable Electrician to carry out a wide range of electrical works, including reactive maintenance, fault finding, and small to large installations across residential, commercial, and industrial sites. The role involves working on both single and three-phase systems, ensuring all work complies with current electrical regulations and health & safety standards. This is a varied, hands-on role suited to someone who can work independently or as part of a team, with a strong focus on quality and professional service delivery.

KEY RESPONSIBILITIES

- Carry out electrical installations, maintenance, and repairs in line with 18th Edition regulations.
- Perform inspection, testing, and certification of electrical systems (2391 preferred).
- Diagnose and resolve electrical faults with a proactive approach.
- Ensure all work is completed safely, to a high standard, and fully compliant with regulations.
- Maintain professionalism when interacting with clients and on-site teams.

EXPERIENCE

- Proven experience in electrical installation, testing, and fault finding
- Experience in securing and maintaining a safe working environment
- Experience working on commercial sites and in client-facing environments

SKILLS & COMPETENCIES

- Excellent customer service
- Reliability and punctuality
- Strong organisational skills
- Strong problem-solving and independent working skills

- Excellent attention to detail
- Professional conduct and appearance
- Collaborative and respectful team player
- Ability to proactively identify potential upgrades

QUALIFICATIONS

- NVQ Level 3 in Electrical Installation (or equivalent)
- City & Guilds 2391 - Inspection & Testing - (preferred, training can be provided)
- 18th Edition Wiring Regulations (essential)
- IPAF (preferred)

Must be able to pass Enhanced DBS check

Valid UK driving licence (essential)
